Independence Series
Small Wall Light

PROJECT INFORMATION

JOB NAME	
FIXTURE TYPE	Independence Small Wall Light
CATALOG NUMBER	
APPROVED BY	

SPECIFICATIONS

Construction:
Rugged Traditional aluminum die cast housing provides proven environmental protection for LED modules. Traditional fixture designs provide a familiar look and standard installation requirements. Retaining this look allows the ability to upgrade fixtures gradually, while retaining the same overall fixture appearance throughout a facility. The smooth housing prevents debris build up and maximizes airflow over housing.

Glare Reduction Lens:
Positioning of the LED modules combined with the unique design of the lens assembly results in light being directed to desired locations and reduces offensive light.
Lens assembly is designed to provide high efficiency and to target the light where needed to satisfy outdoor lighting requirements.

Thermal Management:
Atlas' Patent Pending exclusive Thermal Management System™ features a unique internal design that allows for lower operating temperatures which results in a brighter, whiter light, more stable color and longer LED (200,000+ hrs[1]) and driver life.

Listings:
Luminaire is certified to UL/cUL Standards for Wet Locations
DesignLights Consortium qualied luminaire, eligible for rebates from DLC member utilities.

AC Input: 120/208/240/277V

Driver:
Constant current, Class 2, 120-277 VAC, 50-60 Hz
High Efficiency – min. 84%
Off-State Power: 0 Watts
Dimming: 0-10V

Selectable Lumens and CCT:
Atlas selectable wall lights are quick and easy to select and set up.
Selectable lumens: 1,000-4,000
Selectable CCTs: 4000K, 4500K, and 5000K.

LEDs:
3000K, 4000K, 4500K, 5000K CCT Fixed |
4000K, 4500K, 5000K CCT Selectable
Atlas LEDs provide higher lumen output, greater energy efficiency and more reliable fixture performance.

Reduced Glare:
Positioning of the LED modules within the housing result in light directed to desired locations and reduces offensive light.

Testing:
Atlas LED luminaires have been tested by an independent laboratory in accordance with IESNA LM-79 & LM-80.

Warranty: Five-year limited warranty

Installation:
Fixture retains the same knock-out sizes and positions as previous models, reducing wiring costs.

Photo Control: For factory installed 120V button photo control add suffix PC to part number.

[1]LED Life Span Based Upon LM-70 Test Results
